

# 1965 TO 2005 — 40 YEARS OF CLEAN WATER!

Where were you 40 years ago? The South Treatment Plant in Renton started treating wastewater in 1965.

## Come celebrate 40 years of cleaner local waters!

### WHERE: South Treatment Plant

1200 Monster Road S.W. in Renton  
Plaza by Administrative Building

WHEN: Saturday, Oct. 8, 2005, 10 a.m. to 12:30 p.m.

### WHAT: Open House

- 🌸 Meet some of the clean water pioneers who started it all.
- 🌸 See historical displays and photographs.
- 🌸 Shake a fin with Bert the Salmon.
- 🌸 Tour the plant and see all the ways we recycle.
- 🌸 Enjoy a light brunch and birthday cake.
- 🌸 Learn how we have been protecting public health and water quality during the past 40 years!

Reasonable disability accommodations available on request.

0509SouthPlant40th.ai mdev • 1202M

Printed on recycled paper. Recycling is groovy. Please recycle, man.

**WHY:** In 1950, many pipes let raw sewage drain right into Lake Washington, the Green River, Lake Sammamish, the Duwamish Waterway and Puget Sound. In 1965 the new regional wastewater treatment plant in Renton helped change all that. Today we can safely enjoy a swim on a hot summer day! Peace, love and clean water, man!
